Subject: RM 15-02: Revisions to Procedural Rules
Attachments: MPSC 2003 Electronic Filing.pdf

DeAnna,

It was a pleasure to meet you at the workshop. Per our conversation, I am providing historical information (from 2003) used by the MPSC when establishing electronic filing rules, including electronic signatures. Additional and more recent information is also available on the MPSC website at the below link. This link addresses many of the issues discussed at the workshop, i.e confidential documents. In addition, other issues not discussed but which might be worth consideration, i.e. hyperlinks in documents, are also addressed.

<http://efile.mpsc.state.mi.us/efile/help2.html>

The MPSC requires digital signatures which are established using pdf software. I have established digital signatures for several I&M individuals for electronic filing. If you would like to see a sample of the pdf exchange file that is used to establish the digital signature let me know and I can provide.

I look forward to working with you on this matter. Please do not hesitate to contact me if you have any questions.
